THE JOURNAL OF EXPERIMENTAL EDUCATION

ANNUAL INDEX

Volume 74
Fall 2005–Summer 2006

AUTHORS

Annevirta, Tiina; and Vauras, Marja. Developmental Changes of Metacognitive Skill in Elementary School Children. Spring, 197–225.

Ang, Rebecca P. Development and Validation of the Teacher-Student Relationship Inventory Using Exploratory and Confirmatory Factor Analysis. Fall, 55–73.

DiBattista, David; and Gosse, Leanne. Test Anxiety and the Immediate Feedback Assessment Techinque. Summer, 311–327.

Fernandez-Berrocal, Pablo; and Santamaria, Carlos. Mental Modes in Social Interaction. Spring, 229–248.

Goodwin, Laura D.; and Leech, Nancy L. Understanding Correlation: Factors That Affect the Size of r. Spring, 251–266.

Hahs-Vaughn, Debbie L.; Lomax, Richard G. Utilization of Sample Weights in Single-Level Structural Equation Modeling. Winter, 163–190.

Leighton, Jacqueline P. Teaching and Assessing Deductive Reasoning Skills. Winter, 109–136.

Luh, Wei-Ming; and Guo, Jiin-Huarng. Heteroscedastic Test Statistics for One-Way Analysis of Variance: The Trimmed Means and Hall's Transformation Conjunction. Fall, 75–100.

McCrudden, Matthew T.; Schraw, Gregory; and Hartley, Kendall. The Effect of General Relevance Instructions on Shallow and Deeper Learning and Reading Time. Summer, 293–310.

Nietfeld, John L.; Cao, Li; and Osborne, Jason W. Metacognitive Monitoring Accuracy and Student Performance in the Postsecondary Classroom. Fall, 7–28.

She, Hsiao-Ching. Promoting Students' Learning of Air Pressure Concepts: The Interrelationship of Teaching Approaches and Student Learning Characteristics. Fall, 29–51.

Sivo, Stephen A.; Fan, Xitao; Witta, E. Lea; and Willse, John T. The Search for "Optimal" Cutoff Properties: Fit Index Criteria in Structural Equation Modeling. Spring, 267–288.

Twyman, Todd; McCleery, Jennifer; and Tindal, Gerald. Using Concepts to Frame History Content. Summer, 331–349.

Wilcox, Rand R. Graphical Methods for Assessing Effect Size: Some Alternatives to Cohen's d. Summer, 353–367.

Yetter, Georgette; Gutkin, Terry B.; Saunders, Anita; Galloway, Ann M.; Sobansky, Robin R.; and Song, Samuel Y. Unstructured Collaboration Versus Individual Practice for Complex Problem Solving: A Cautionary Tale. Winter. 137–159.

TITLES

Development and Validation of the Teacher-Student Relationship Inventory Using Exploratory and Confirmatory Factor Analysis. Rebecca P. Ang. Fall, 55–73.

Developmental Changes of Metacognitive Skill in Elementary School Children. Tiina Annevirta and Marja Vauras. Spring, 197–225.

The Effect of General Relevance Instructions on Shallow and Deeper Learning and Reading Time. Matthew T. McCrudden, Gregory Schraw, and Kendall Hartley. Summer, 293–310.

Graphical Methods for Assessing Effect Size: Some Alternatives to Cohen's d. Rand R. Wilcox. Summer, 353–367.

Heteroscedastic Test Statistics for One-Way Analysis of Variance: The Trimmed Means and Hall's Transformation Conjunction. Wei-Ming Luh, and Jinn-Huarng Guo. Fall, 75–100.
